

# 2026 Annual Reporting Compliance Workshop

## Your 2026 Asset Management progress review starts here.

Completing a compliant AMP is a major milestone, but municipalities are required to review progress in implementing the plan every year. Do you know how you will show progress to Council this year?

This workshop supports municipal asset management staff in preparing for their first and subsequent annual reviews, with practical guidance on assessment and reporting.

### This workshop will provide:

- ▶ Key requirements for the annual review
- ▶ Examples from leading municipalities
- ▶ Templates and checklists to follow

This course is designed for municipal staff responsible for asset management.

Contact [rose@mfoa.on.ca](mailto:rose@mfoa.on.ca) to secure your spot at the workshop today.

## This course focuses on making the annual review a regular part of your AM practice.

Participants receive report-ready tools to get a head start on documenting progress.

**Benjamin Koczowski** will be your facilitator for this interactive workshop. He has assisted over one hundred Canadian municipalities to overcome infrastructure challenges through effective asset management and strategic planning. He believes the best solution is the one that is effective in your context.
